All competitors take part at their own risk.

Your personal details will be used for administering this event, distributing results and to inform you of our other events.

For more information and late-breaking news visit www.socweb.org/events

- Map:** Scale 1:10,000, 5m contours, surveyed 2008-9, with limited revision 2015. Maps and control descriptions will be printed on A4 waterproof paper. Blue and Green maps located at the start. Yellow, Orange and Light Green maps will be distributed at registration, where there will also be an opportunity to discuss your course with a coach. The control descriptions are on loose control descriptions in start lanes.
- Terrain:** Typical New Forest terrain of open heathland and runnable woodland. The woodland areas are linked by a network of forest tracks and rides around uncross-able marshes. After rainfall the rides are likely to become very muddy and there are currently many large puddles across tracks.
- Safety bearing:** The event area does not have a well-defined close boundary around the event area. Inexperienced juniors should be accompanied. This is probably not the best venue for a junior to have his / her first unsupervised run. If you get lost the safety bearing is East. If you find the power-lines, head south to the event centre close to the southern-most pylon. If you reach a road and no power-lines, WITHOUT crossing the road, follow it north-east to the power-lines and the event centre.
- Start:** There is a 450m walk to the start and zoom back from the finish.
- Clothing:** Full leg cover must be worn. Full arm cover is recommended. Whistles should be carried. In adverse weather we may ask you to wear a cagoule or similar waterproof top.
- Hazards:** Please be aware of the risk of ticks and Lyme disease. The area is frequented by ponies, deer and livestock and the usual precautions to avoid infection apply.
- Dogs:** Dogs should be kept under control and on a lead when necessary.
- Officials:** Planner: Peter Stewart SOC
Organiser: Sally Topsom SOC
