Results for Local Event at Hut Wood 16/05/09

Thanks to everyone for coming to the event on what was a very showery, blustery day. 43 entries and 67 actual competitors – it really does make the effort involved worthwhile.

It was great to see so many first timers and beginners at the event, I hope you all enjoyed yourselves and I hope to see you again at one of our future events.

It was also satisfying to see over 20 experienced SOC members and members from nearby clubs at the event.

Hut Wood is good for planning yellow and orange courses due to the extensive track and path network, even if they do become quite muddy in places. Unfortunately, the encroachment of brambles, thistles and bracken makes planning for green courses and little more difficult. I kept the green course away from the worst undergrowth (honestly I did!) but was still surprised by the amount of growth since my last visit 2 weeks ago. My apologies if it was a little too physical.

I must also apologise for a printing error in the control codes for the orange course. During the day a couple of compasses were mislaid. If you find you have forgotten to return one please let me know.

I haven't ranked the results below in any order to reflect the informal nature of the event. During the rain showers in the morning, my entry record sheet became a bit damp and some of the details smudged. I hope I have deciphered your names enough for you to recognise yourself!

Last but by no means least, I must thank the small group of SOC members who helped on the day with registration, coaching for newcomers, control collection and for 1 in particular, directing the car parking during the worst of the morning's rain.

I hope to see you all soon,

Simon Bevan.
